These products include the GPS Advisory, GPS Advisory Collection, Ops Status, and the Public Common Almanac. The subject meeting will also present a conversion tool and other information necessary for GPS users to access the new product formats and ensure backwards compatibility. The out-of-cycle 2023 Public Interface Control Working Group is open to the general public.

Comments to the proposed changes will be collected, catalogued, and adjudicated for potential inclusion. If accepted, these changes will be processed through the government change management process for ICD-GPS-870. All comments must be submitted in a Comments Resolution Matrix. This form along with the proposed change notices, public document baseline documents and the official meeting notice are posted at:
